OVER 15,000 INDIVIDUALS PERMANENTLY HOUSED
through Home For Good Partners since 2011

Home For Good established a **Funders Collaborative** in 2011 to align public and private funds to invest in a critical solution to homelessness: permanent supportive housing. Previously, each funder distributed their resources in isolation, leaving housing providers to cobble a multitude of funding sources and preventing funders from leveraging their dollars to greatest impact.

The Funders Collaborative is designed to address these challenges by bringing public and private funders together to create maximum impact with our limited funds.
