Vendor Summary	Founded in 1979, the Center for Nonprofit Management offers extensive technical assistance and management support services for the nonprofit sector. The Center For Nonprofit Management takes a holistic approach and believes in the ability of leaders to solve complex problems.	With over 25 years experience as an intermediary, technical assistance provider, capacity builder, network manager, and fiscal sponsor, Community Partners has a robust experience and valuable expertise to support organizations of every size an stage of organizational development.	With over 20 years experience in nonprofit social services, Melissa Green offers coaching consultation services to delev magemente systems, structures, and knowledge bases so providers can better achieve their strategic goals.	Nonprofit Finance Fund is a national nonprofit community development institution that provides a continuum of consulting, financing, an advocacy services to nonprofits and funders nationwide since 1980.	Social Action Partners was established in 2009 to assist organizations that share a common agenda to work in collaboration and develop strategic approaches to building capacity, with a specific focus on low-income communities of color. Social Action Partners believes that providing support that is cost efficient and culturally responsive will result in nonprofits working at their full potential; and that stronger nonprofits will lead to more resilient and stronger communities.	Founded in 1952, SSG is a multi-service community-based organization, holding CARF Accreditation for outpatient mental health, behavior health, and employment and community services. SSG's capacity building and technical assistance programs are designed to strengthen the ability of SSG programs, community-based organizations, community members and stakeholders to make a significant and positive impact on lives of the individuals and communities we serve.
