

**WE LEVERAGE THE POWER OF COLLECTIVE
IMPACT TO END HOMELESSNESS IN L.A. COUNTY.**

**More than 66,000 people are
experiencing homelessness in L.A.
County right now. We're on a mission to
end this decades-long crisis for good.**

OUR MISSION

Home For Good is a cross-sector initiative of United Way of Greater Los Angeles that unifies the community around a bold vision of ending homelessness in L.A. County, pioneers promising approaches, and coordinates across diverse, multi-sector coalitions to scale the most transformative, equitable solutions.

WHAT WE DO

We create a unified vision

We work across sectors to guide vision and strategy development, ground those strategies in sound data and evidence, increase system transparency and equity, and scale transformative solutions to end homelessness.

We optimize public and private resources

We invest private dollars to test bold innovations, evaluate their success and sustainability against specific goals and metrics, and leverage public dollars to bring the most effective solutions to scale.

We convene experts and decision-makers

We create inclusive spaces for public agencies, policymakers, private partners, funders, service providers, and people with lived experience to discuss and shape policies, practices, and progress against shared goals and metrics.

We transform policies and systems

We work alongside multi-sector coalition partners and local communities to increase transparency about our shared progress and to advocate for new policies at the local, state, and federal levels that will drive transformative change across L.A. County.

CURRENT PRIORITIES

We choose our initiatives by actively engaging with our diverse partners to identify unique opportunities for philanthropy to be involved in systemic improvements.

- Expanding access to health services
- Responding to unsheltered homelessness
- Diversification and improvement of housing opportunities
- System capacity and infrastructure
- Scaling solutions for disproportionately impacted populations
- Resources amplification
- Responsive research

OUR IMPACT

Home For Good has built a reputation as a trailblazer that convenes uncommon partnerships and sets the stage for transformative change. Here is some of our impact:

- Raised and aligned more than \$62 million in private funding and leveraged more than \$5 billion in public resources to strengthen system capacity, spark innovation, improve service delivery, expand our housing pipeline, and create new dedicated housing resources for people experiencing chronic homelessness
- Increased housing and homelessness solutions by leading the campaigns to pass Measure H and Proposition HHH
- Facilitated the development of and funded the growth of the Coordinated Entry System (CES) which fundamentally changed the way we assess, prioritize, and match clients to housing resources across Los Angeles
- Supported the launch and development of the Homelessness Policy Research Institute, which established a more responsive, co-designed research approach and has become the lead facilitator for local homelessness and housing research

“The visionary leadership provided by Home For Good has resulted in thousands of lives being saved, thousands of life-changing jobs being created, countless smiles and restoration of hope in people’s eyes, and a path forward to work in a manner in which we really believe that we can functionally end homelessness in our County.”

Veronica Lewis

Director of Homeless Outreach Program Integrated Care System (HOPICS), a division of Special Service for Groups
